IZLOŽBA UDRUGE AMA ARTEM

Udruga Ama Artem osnovana je 2008. godine i okuplja osobe sa specifičnim životnim odabirom – kontinuiranim bavljenjem likovnom materijom i kreiranjem novih umjetničkih svjetova.

Svrha rada ove udruge jest sistematsko prožimanje svakodnevice s kvalitetnim likovnim izričajem te upoznavanje šire publike s radovima udruge i njezinih članova.

Udruga koja okuplja velik broj umjetnički nadarenih i opusom vrlo zrelih kreativaca ovom izložbom upotpunjava niz uspješnih izlaganja.

Izložba udruge Ama Artem obuhvaća šarolik spektar radova koji variraju od impresionističkih doživljaja prirode, kolorističke vedrine jakih boja te impresionirajuće realistične uvjerljivosti do očaravajuće apstrakcije koja nas nadahnjuje. Svaki dio ovog slikarskog univerzuma ima svoju draž. Impresionistički doživljaji titraja svjetla, komešanja trave i lišća, pomicanje ljudi ispred katedrale kao i zrcaljenje svjetla u jezeru privlače nas svojim ljeskanjem i prividom. Jake bogate boje, nanosi u slojevima i pastama, hrapave teksture i bitka boje koja želi privući našu pozornost, to su odlike kolorističkih i ekspresionističkih slika poput maslina ispod crvenog neba, apstraktnih glagoljičkih znakova te pejzaža, figura i portreta s ove izložbe. Doživljaj realnosti za svakoga od nas je različit, jednako tako i u slikarstvu, divimo se rasponu od minucioznih detalja, realistične slikarske točnosti, impresije, ekspresije pa sve do apstrakcije u kojoj samo naziremo mogućnost teme (no zato uživamo u čistom nepatvorenom likovnom izričaju).

Ova izložba obiluje i različitim tematikama, no sve slike imaju zajednički doživljaj svijeta oko sebe – to bogato slikarsko platno kroz čije poteze naziremo raznolik likovni opus. Teme variraju od nadahnutih pejzaža, starih kućica, crkvi i povijesnih građevina do osoba, životinja te starih narodnih običaja. Moglo bi se reći da se život i sastoji od toga: od uživanja u prirodi, druženja s ljudima i životinjama, nostalgije za prošlošću kao i od novih i svježih pogleda na budućnost.

Ovaj život bogat je bojom, gustim namazima koji se izmjenjuju, titrajima koji nestaju, točnim preciznim detaljima kao i apstraktnim sintezama zabilježenih doživljaja.

Život članova udruge Ama Artem vrlo je bogat i kreativan, a kroz ovu izložbu žele taj doživljaj podijeliti i s vama.

Ana Schaub, magistar umjetnosti

EXHIBITION OF ASSOCIATION AMA ARTEM

Association 'AmaArtem', founded in 2008, has been gathering people with a specific life choice – continuous work with esthetic material and creation of new artistic worlds. If one should examine the purpose of this Association, it would be systematic intertwining of everyday life with quality artistic expression and bringing the work of Association and its members closer to the general public.

Association gathers a large number of artistically talented and creative people with a multitude of work. This exhibition completes a string of very successful public exposal's of work.

Exhibition of Association 'AmaArtem' comprises a colorful spectrum of work which varies from impressionist experiences of nature, colorist vivacity of bold colors, and realistic persuasiveness which impresses us, to enchanting abstraction that inspires us. Each part of this painterly universe has its lure. Impressionist experiences of light vibration, flutter of grass and leaves, movement of people in front of the cathedral, as well as mirroring of light in the pond, attracts us with its flicker and semblance. Bold and rich colors, multiple layers and paste spread, rugged textures and the conflict of colors which demands our attention, those are all the qualities of coloristic and expressionistic paintings. Olive trees under the red sky, abstractGlagolitic signs, landscapes, figures and portraits are just some of the pieces of art the patron can experience in this exhibition. The sense of reality is different for each individual, same case we encounter in the art of painting. Admiration to the meticulous detail, realistic painting accuracy, impression, expression and all the way to abstraction in which we can only guess the theme of the painting (but enjoy pure artistic expression). This exhibition richly comprises of various themes, although all the paintings have the common experience of the world which surrounds us, the opulent canvas through which we perceive the diversity of artistic work. Themes vary from inspired landscapes, old houses, churches, historical architecture, people, animals and ancient folk customs. One could state that life is like a fabric woven from these things; the delight of being outdoors, enjoying nature, people, animals, feeling of nostalgia as well as having a fresh perspective of the future. This life is rich with colors, thick spreads which interlope with each other, vanishing vibrations, precise details and abstract synthesis of registered events.

Life of the members of Association 'AmaArtem' is very opulent and creative, and through this exhibition it wishes to share that experience with you.
